

Foamkore[®] FR

Foamkore FR is a Class A lightweight product that meets ASTM E 84 certifications.
The face material consists of an 1/8" non flame spreading material.

This construction combines a lightweight durable non combustible face with a polystyrene foam core to achieve a class A lightweight material. This product contains no added formaldehyde.

CLASS A

- ASTM E 84 test results:
 - 0 - Flame spread
 - 0 - Smoke development
- Will give weight reduction of 60% and up when compared to FR Particleboard and MDF.
- Available in nominal 4' X 8' panel size and in thicknesses from 3/4" up to 3".
