Retirement from Kerfkore Company

Kerfkore Company would like to inform you that Dave Schoeppner, Eastern Sales Manager, has retired effective December 31, 2010. Dave joined us in 1986 and for the past 25 years has been an integral part in the growth and development of the company. During this time, he was involved in manufacturing, purchasing, and sales. His involvement contributed to help shape the company into its present day position. We all want to thank Dave for his dedication and support of Kerfkore Company and wish him the very best in his venture into retirement.

Kerfkore Company is a manufacturer of patented bendable substrates, lightweight structural panels and architectural panels. These products allow for the creation of numerous designs that open the opportunity to produce curves and innovative products as vast as your imagination. No matter what type of curve or lightweight needs you may have, we have a product that can provide quicker results that are more accurate, with higher quality, and easier to fabricate than traditional methods. We are committed to providing "green" products that can have a positive impact on our environment and also help you achieve some of the qualifications needed for the USGBC's LEED certification program.
