

NEW Foamkore®

Internal Perimeter Band

**Kerfkore Company now offers
Foamkore® with an optional
internal perimeter band**

- Internal bands offered include: MDF, Particleboard, solid wood, and plywood
- Very suitable for projects with higher volume requirements.
- Internal bands can be produced to customer specifications
- Solid edges allow for conventional attachment methods to be used
- Produces a lightweight panel product with a solid look

Panels can be manufactured to custom sizes, thickness, and face treatments

- Face materials can include numerous substrates such as: Hardboard, MDF, and Plywood
- Optional face materials include veneer, HPL, Melamine, and other materials
- Panels can be supplied oversized or exact size as required.
