Top 2012 Kerfkore Distributors

Each year, Kerfkore Company gives distributor awards based on their purchases and sales of Kerfkore products.

For 2012, **Holdahl Company** receives the distributor award for the Largest Percentage Increase of Kerfkore products. They sell the complete line of bendable and lightweight panels plus they inventory these materials so they can be delivered quickly to supply their customers' requirements. Their growth this year was achieved through standard product sales along with some nice customer projects. We appreciate **Holdahl's** support from their management and sales team to make this award possible.

Our congratulations to **Holdahl** for their performance in 2012. We are delighted to present them with the Largest Percentage Increase of the Year award from Kerfkore Company.

Kerfkore Company is a manufacturer of patented bendable substrates, lightweight structural composite panels and architectural panels. These products allow for the creation of numerous designs that open the opportunity to produce curves and innovative products as vast as your imagination. No matter what type of curve or lightweight needs you may have, we have a product that can provide quicker results that are more accurate, with higher quality, and easier to fabricate than traditional methods. We are committed to providing **green+** products that can have a positive impact on our environment and also help you achieve some of the qualifications needed for the USGBC's LEED certification program.
