New Employee at Kerfkore Company

Kerfkore Company would like to announce the addition of a new sales manager to the sales team. Dave Quackenbush will be the new Southeast Regional Sales Manager. Dave comes to Kerfkore from Arpa USA where he was National Sales Manager for 5 years. He graduated from Appalachian State University with a B.S. degree in Merchandising and has been in the sales and sales management business for over 22 years. Dave has a lot of strength in specification sales within the architect and design community and working with distribution and creating customer relationships. We are very excited about Dave joining the Kerfkore team and we know he will be a great asset to our company.

Kerfkore Company is a manufacturer of patented bendable substrates, lightweight structural composite panels and architectural panels. These products allow for the creation of numerous designs that open the opportunity to produce curves and innovative products as vast as your imagination. No matter what type of curve or lightweight needs you may have, we have a product that can provide quicker results that are more accurate, with higher quality, and easier to fabricate than traditional methods. We are committed to providing “green” products that can have a positive impact on our environment and also help you achieve some of the qualifications needed for the USGBC’s LEED certification program.
