FSC Beadboard from Kerfkore

Kerfkore Company now has an FSC version of Beadboard that is made with an FSC certified MDF. This MDF Beadboard contains no added formaldehyde and is 100% recovered and recycled fiber. Comes in a standard size of 1/4" MDF with a panel size of 4' x 8' or 4' x 10'. Other sizes and options may be available. Also, the FSC Beadboard is available with different face veneers as requested by the customer.

Kerfkore Company is a manufacturer of patented bendable substrates, lightweight structural panels and architectural panels. These products allow for the creation of numerous designs that open the opportunity to produce curves and innovative products as vast as your imagination. No matter what type of curve or lightweight needs you may have, we have a product that can provide quicker results that are more accurate, with higher quality, and easier to fabricate than traditional methods. We are committed to providing "green" products that can have a positive impact on our environment and also help you achieve some of the qualifications needed for the USGBC's LEED certification program.
